
How is the speed of our new server?

Posted by admin - 2006/06/06 08:22

On June 1, 2006 we have migrated our server to DreamHost.com hoping that the site will be faster and of course a huge 20GB webspace with virtually unlimited bandwidth also attracted us. However, we do not know the experience of our site visitors.

If you have time please consider replying to the following set of questions:

- 1). Is the site loading faster? (does it take too much time to open the pages?).
 - 2). Overall look.
 - 3). etc, etc.

YOUR NEW SERVER SPEED IS PRETTY FAST. IT'S SATISFACTORY BROWSING YOUR WEBPAGE.
